

**SABRECRAFT MARINE** SDN BHD

# INTRODUCTION

Sabrecraft Marine, strategically located in Malaysia, Southeast Asia, is a premier vessel manufacturing company committed to delivering cutting-edge marine design and technology. Our clientele spans across Australia, New Zealand, Southeast Asia, and the South Pacific, relying on Sabrecraft Marine for the forefront of marine innovation.

In addition to our extensive catalogue of standard designs, we specialize in crafting custom-built vessels tailored to meet the unique requirements of each customer. At Sabrecraft Marine, we prioritize the customer experience, offering assistance in both executing provided plans and collaborating on the design of specialized vessels.

Our manufacturing facility holds ISO 9001 Certification, ensuring that all materials and craftsmanship adhere to rigorous Australian standards, as well as international benchmarks such as DNV/BV where applicable. Utilizing high-tensile 5083-H116 aluminium approved by DNV, ABS, or BV, we employ precision CNC routers to maintain exacting standards. Our state-of-the-art twin pulse inverter MIG/MAG machinery ensures optimal weld penetration with no distortion, resulting in a superior finish. Furthermore, we utilize CNC machines for both fender and marine decking applications, enhancing our capability to deliver exceptional marine solutions.

## Welcome to Sabrecraft Marine—where innovation meets the sea, and the future of autonomous maritime technology is being built today.

Sabrecraft Marine stands at the forefront of maritime innovation, specializing in the design, manufacture, and deployment of cutting-edge autonomous vessels. With a commitment to excellence and a passion for pushing the boundaries of technology, Sabrecraft Marine delivers state-of-the-art solutions for a diverse range of maritime applications, including commercial, environmental, and defense sectors.

### ***Pioneering Autonomous Maritime Solutions:***

At Sabrecraft Marine, we harness the power of advanced technology to redefine what is possible on the water. Our autonomous vessels are engineered to perform with unparalleled precision, safety, and efficiency, offering transformative capabilities that meet the evolving demands of modern maritime operations. From autonomous navigation systems to integrated AI-driven platforms, our vessels are designed to operate in the most challenging environments, ensuring reliability and performance where it matters most.

### ***Proven Technology, Ready for Deployment:***

With several innovative autonomous vessel models already completed with successful sea trials as well as others in production, Sabrecraft Marine has established itself as a leader in the autonomous maritime industry. Our vessels are to be deployed globally, providing exceptional performance in roles such as surveillance, environmental monitoring, cargo shuttling, oil spill response, mobile triage with operating theatres and more. Each vessel is equipped with state-of-the-art features, including AI-enhanced navigation, real-time data integration, and advanced safety systems, underscoring our dedication to delivering industry-leading technology that drives efficiency and effectiveness on the water.

### ***Our Vision:***

Sabrecraft Marine envisions a future where autonomous vessels revolutionize the maritime industry, providing sustainable, reliable, and intelligent solutions that enhance operational capabilities and contribute to a safer, cleaner, and more efficient maritime environment. We are committed to ongoing innovation and excellence, continually advancing our technology to meet the needs of our customers and the challenges of the future.

### ***Commitment to Quality and Innovation:***

Quality and innovation are at the heart of everything we do at Sabrecraft Marine. Our dedicated team of engineers, designers, and maritime experts work tirelessly to develop vessels that not only meet but exceed industry standards. We pride ourselves on our ability to deliver custom solutions tailored to the specific requirements of each client, ensuring optimal performance and satisfaction.

### ***Join Us on Our Journey:***

As we continue to lead the way in autonomous maritime technology, Sabrecraft Marine invites you to explore the possibilities of what our advanced vessels can offer. Whether you are looking to enhance your operational capabilities, reduce environmental impact, or improve safety and efficiency on the water, Sabrecraft Marine has the expertise and technology to deliver unparalleled results.

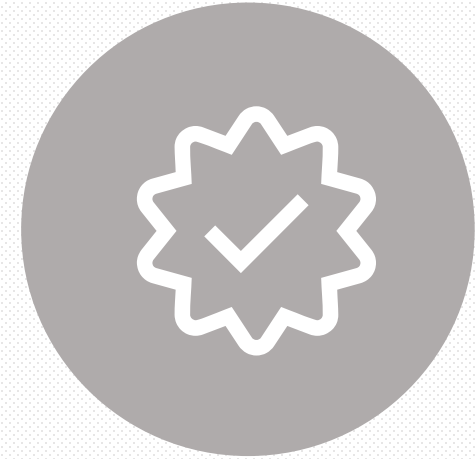

## CUSTOMER EXPERIENCE

To consistently surpass customer expectations.

## INTEGRITY AND TRANSPARENCY

To be ethical, objective, sincere and open in all our transactions.

## PURSUIT OF EXCELLENCE

To strive relentlessly, constantly improve ourselves, our teams, our services and products to become the best!

# MISSION

From the beginning our mission has always been to design and supply cutting edge marine technology at realistic and affordable prices.

Today, companies and individuals across Australia, New Zealand, Southeast Asia and the South Pacific look to Sabrecraft Marine for the latest in marine design and technology.

As technology and design continue to evolve our commitment to our customers will always remain the same.

“Greatness can be achieved with the right attitude”

-Stephen J Stirrup

“Do not assume”

-Stephen J Stirrup

## DESIGN

DRAWINGS FOR DESIGN OR MODIFICATION CAN BE COMPLETED BY OUR IN-HOUSE NAVAL ARCHITECTS AS WELL AS UTILISING OUR CONNECTIONS WITH WORLD CLASS DESIGNERS.

## CUSTOM BUILD

AS WELL AS OUR EXTENSIVE RANGE OF STANDARD DESIGNS WE UNDERSTAND OUR CUSTOMERS NEEDS FOR A BOAT THAT IS CUSTOM BUILT TO MEET THEIR PERSONAL REQUIREMENTS. AS PART OF OUR CORE VALUES CUSTOMER EXPERIENCE IS SOMETHING WE ARE VERY PASSIONATE ABOUT AND CAN BUILD TO PLANS BROUGHT TO US OR ASSIST OUR CUSTOMERS WITH DESIGNING THEIR SPECIAL PURPOSE VESSEL.

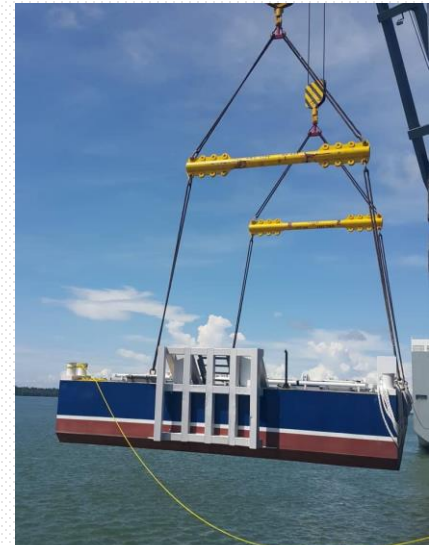

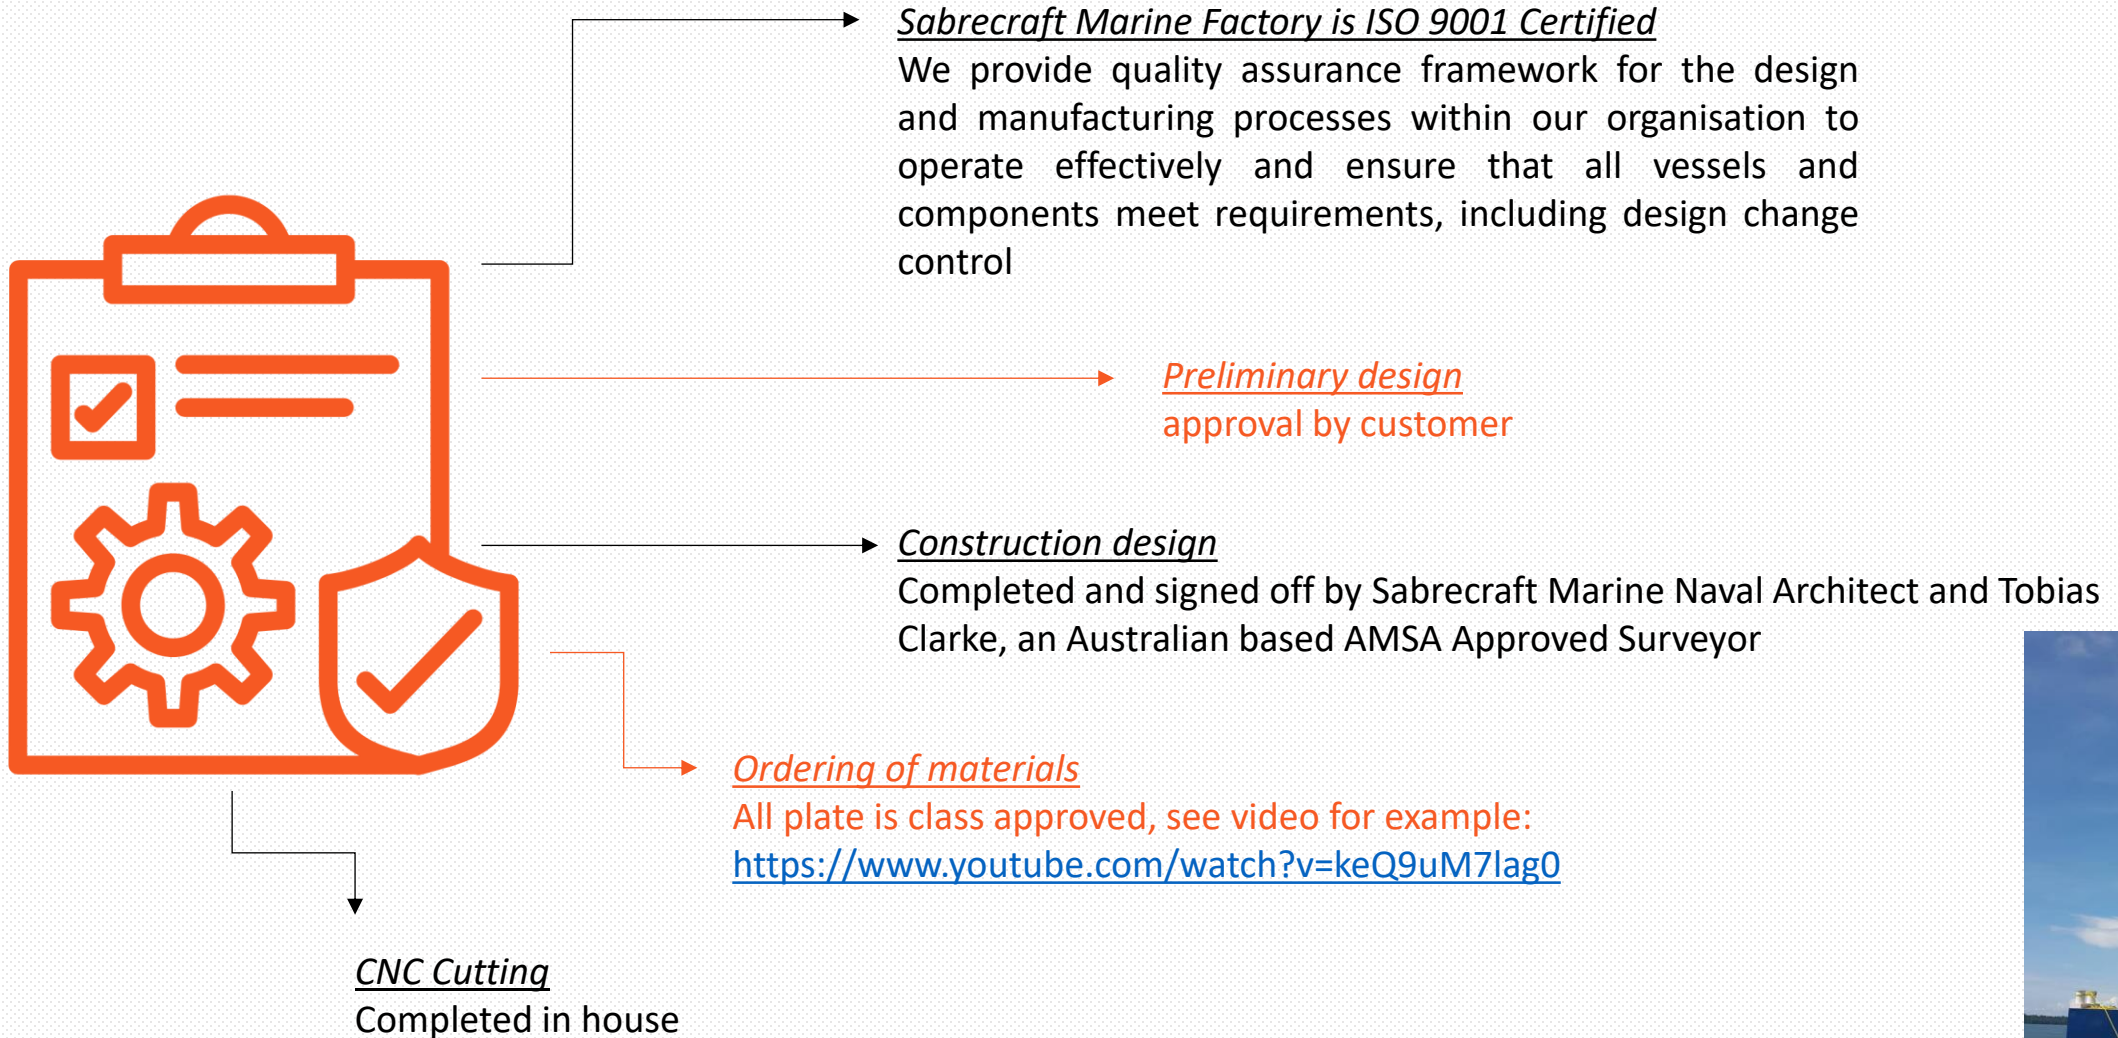

## QUALITY

ALL THE MATERIALS AND WORKMANSHIP FULLY COMPLY WITH AUSTRALIAN STANDARDS AS WELL AS INTERNATIONAL STANDARDS SUCH AS DNV/BV WHERE REQUIRED. ALUMINIUM IS CLASS APPROVED TO EITHER DNV,ABS OR BV USING HIGH TENSILE 5083-H116 PRECISION CNC ROUTERS, TO ENSURE EXACTING STANDARDS. ALL OF OUR MACHINERY IS STATE OF THE ART TWIN PULSE INVERTER MIG/MAG GIVING OPTIMUM WELD PENETRATION WITH ZERO DISTORTION AND A VERY NEAT APPEARANCE.

# QUALITY ASSURANCE

**DELIVERY WORLD WIDE**

**ON SCHEDULE DELIVERY**

**SAFETY**  
ALL VESSELS STRAPPED AND LOADED  
CORRECTLY

**20,000 m2**  
OVERALL STORAGE AREA

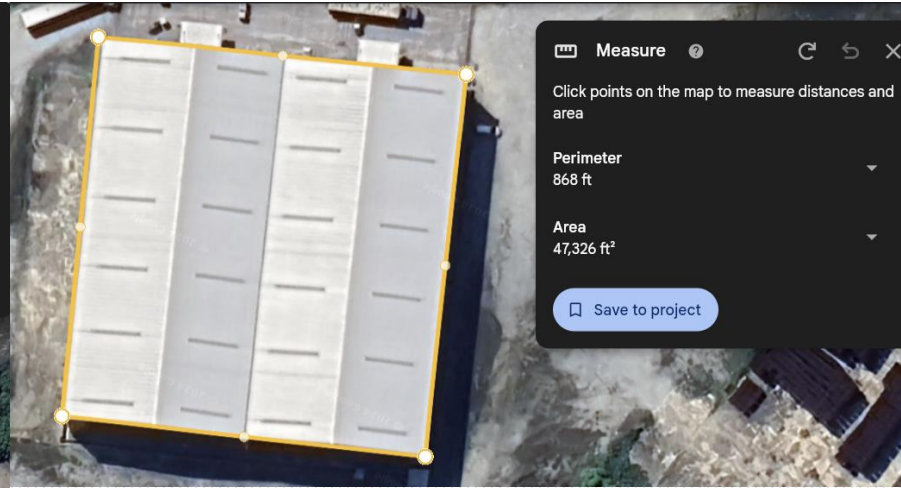

**QUALITY INSPECTIONS**  
BEFORE DISPATCH

**OVER 75 STAFF**

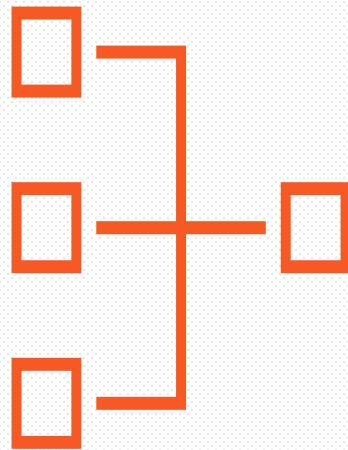

# PRODUCTION FACILITY

Sabrecraft Marines production facility provides space for expansion and growth while also keeping all components of production in house

- Requirements
- Concept Design
- Design Approval – Naval Architects
- Production – CNC department
- Inspections – Naval Architects
- Painting
- Fendering – CNC department
- Electrical Fitting – Electrical Technicians
- Autonomous Fit Out – Electrical Technicians
- Sea trials
- Containerisation

***All completed in house***

### CUSTOMER EXPERIENCE

To consistently surpass customer expectations.

### INTEGRITY AND TRANSPARENCY

To be ethical, objective, sincere and open in all our transactions.

### PURSUIT OF EXCELLENCE

To strive relentlessly, constantly improve ourselves, our teams, our services and products to become the best!

***\*\*Access to over 200 local workers ready to upscale by March 2025 with a current workforce of 75 team members we can quickly mobilize our workforce ready for production deadline\*\****

# PROJECTS

18.00 Meter Modular Barge

12.00 Meter Self Propelled Modular Barge

24.00 Meter Steel Barge

12.00 Meter Passenger Ferry

8.00 Meter Pile Drive Barge

18.00 Meter Jack Up Barge

# PROJECTS

25.00 Meter Landing Craft  
Barge

12.90 Meter High Speed  
Landing Craft

10.00 Meter  
Work Boat

13.50 Meter Ferry  
Currently In Construction

24.00 Meter  
Roro Barge

12.00 Meter Modular  
Barge

# PROJECTS

9.00 Meter Work Boat  
With Ramp

8.00 Meter Work Boat  
Punt

48 x Produced so far

7.40 Meter CE Approved  
Work Boat Punt

36 x Produced so far

5.90 Meter CE Approved

Bottom Boat

# PROJECTS

2 x 9.80 Meter RHIB  
Autonomous Vessel

5.40 Meter  
River Cat

7.40 Meter Work Boat  
Pusher Punt

7.00 Meter Self Propelled  
Barge

3 x 9.90 Meter Work Cat  
with Raised Bridge

18 x 9 Meter Modular  
Steel Deck Barge

## Aluminium Plate Boat Specialists!

Our holistic approach ensures all vessels purchased are designed specifically for each customer's requirements, we have a multi-purpose vessel designed to suite every need!

Sabrecraft Marine truly is your one-stop shop for all vessel design, certification and manufacturing needs. With our in-house naval architects, AMSA approved surveyor, CE certified products and precision CNC

Contact us today to discuss your next step in purchasing a quality built and designed vessel fit for purpose and completely customizable to suit your needs!
